School Improvement Plan Summary

Macclesfield Primary School

Goals	Targets	Challenge of Practice	Success Criteria
Increase student achievement in Numeracy R-6.	2022: NAPLAN Year 3 – 66% (4/6 students) meet SEA and 33% (2/6 students) achieve high bands Year 5 – 60% (6/10 students) meet SEA and 30% (3/10 students) achieve high bands PAT – R – 45% significantly above SEA (17/38 students)	If we differentiate our teaching through a collaborative and whole school approach to task design that enables intellectual stretch and challenge, then we will increase student achievement in Numeracy R-6	Each student will be able to articulate their thinking process / achievement of open-ended tasks. Each student will be able to represent their mathematical thinking in either concrete, pictorial or abstract form Each student will be able to goal set based on feedback using '1 can charts' Each student will be able demonstrate the above success criteria at their targeted identified level / year level of the mathematics scope and sequence Each student will be able to demonstrate their knowledge, use and understanding of the three strands of the English curriculum Language, Literature and Literacy Each student will be able to articulate their learning goals based on their writing / Brightpath feedback Each student will be able to link their goals to the curriculum content descriptors for creating texts and creating literary texts (I can goal grids) Each student will be able to create goals based on authorial choices and/or language conventions
	2023: Additional targets to be developed based on 2022 data		
	2024: Targets will be set using 2023 data		
	2022: 4 out of 7 students will achieve high bands in NAPLAN writing.		
Increase student achievement in Literacy R-6 with a focus on writing	2022: Aspirational target based on 2022 data	If we differentiate our teaching through a collaborative and whole school approach to task design that enables intellectual stretch and challenge, then we will increase student achievement in writing	
	2023: Aspirational target based on 2023 data		
	2024: Aspirational target based on 2023 data		
	2022: 2023: 2024:
